VOLUME CVI.---NO 86. ALEXANDRIA, VA., WEDNESDAY EVENING, APRIL 12, 1905. PRICE 2 CENTS.

$1000 REWARD

Is offered as a guarantee that neither

Dr. Pierce's Favorite Prescription

NOR

Dr. Pierce's Golden Medical Discovery

contains **alcohol**, opium, or any harmful drug. Any one publishing false statements concerning their ingredients will be prosecuted. Doctor Pierce's Family Remedies are compounds of medicinal principles, scientifically extracted from native roots that cure the diseases for which they are recommended. They are medicines which have enjoyed the public confidence for over a third of a century. They are **medicines not beverages**, made to satisfy a craving for "booze."

"Golden Medical Discovery" regulates and invigorates stomach, liver and bowels, and cures dyspepsia, purifies the blood and tones up the system generally.

"Favorite Prescription" cures female weakness, irregularities, exhausting drains, painful periods and kindred ailments peculiar to women. Accept no substitute for these medicines, each of which has a record of marvelous cures. Substitution means selfishness on the part of the dealer who is looking for the greater profit on an inferior article.

"Our daughter who was attending college became very nervous and we were advised to try Dr. Pierce's Favorite Prescription," writes Mrs. M. C. Fox, of 57 E. Leonard St., Grand Rapids, Mich. "We did so and then you advised us to get the 'Golden Medical Discovery' also. She took four bottles of the 'Prescription' and three of the 'Golden Medical Discovery,' and you never saw such a change in a person. She said she did not feel like the same person. She was about seventeen years old at the time. I will gladly recommend Dr. Pierce's medicines to every one. I advise parents who have young daughters who suffer from nervous troubles to try Dr. Pierce's Favorite Prescription at once. I am sure it will help them."

$50,000 GIVEN AWAY, in copies of The People's Common Sense Medical Adviser, a book that sold to the extent of 500,000 copies a few years ago, at $1.50 per copy. Last year we gave away 30,000 worth of these invaluable books. This year we shall give away $50,000 worth of them. Will **you** share in this benefit? If so, send only 21 one-cent stamps to cover cost of mailing only for book in stiff paper covers, or 31 stamps for cloth-bound. Address Dr. R. V. Pierce, Buffalo, N. Y.

NATURE SPARES

The Stricken Rose From Grief.

What a fortunate provision of nature it is, that deprives the rose of mental suffering; for how poignant would be its grief to discover, in the height of its blooming glory, that a canker fed at its heart, and that its beauty and fragrance were doomed forever. Nature always spares the suffering; she is a veritable store-house of pleasing rewards, for those who seek her aid. In the years gone by falling hair and grayness have cast a gloom over the lives of thousands of young women, but thanks to the investigations of scientists the true cause of hair destruction is now known to be a germ or parasite that burrows into the hair follicles. Newbro's Herpicide absolutely destroys this germ, thus permitting the hair to grow as nature intended. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol
Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I get a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.
MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

Story Told by Julia Smith.

Julia Patterson Smith, sister of Nan Patterson, who, with her husband, J. Morgan Smith, was taken to New York to testify in the famous murder case, gave out a lengthy interview last night in which, after reciting the story of her arrest, she said:

"We did object to being brought back to New York with a lot of baseless charges hanging over us, and if we had not reached an agreement with Mr. Garvan that the conspiracy charge would be the only one, we would have kept up the fight and would be in Cincinnati now.

"My sister is as innocent of the crime charged against her, or of any other crime, as a baby. She would not hurt anyone. The idea of carrying a revolver or any other deadly weapon would have thrown her into a nervous fit.

"She will be acquitted. All the testimony that Morgan and I can give will only help to establish her innocence There is no doubt in my mind that she will be free in a few weeks, and I am glad I shall be in New York to join in her freedom and vindication with her.

"There has been an immense lot of talk about letters taken from my trunk. Those letters have no more to do with Nan's case than an East Side shop girl's scrawl to her sweetheart would have. They were merely personal correspondence.

"It is unpleasant, of course, to have one's letters exposed to general scrutiny, but, so far as their effect of Nan's case is concerned, I have not the slightest regret that they were taken.

"I shall not regret the Tombs, because Nan and I will be together.

"Now you see there was no mystery about our going away, and we should have been back two weeks ago if we had not been arrested, but it all comes out the same way. So we will be cheerful. The charge against us will fall with the charge against Nan.

"So far as we are concerned, Morgan and I know nothing about the case, and the charge of conspiracy is all rubbish. I really do not know what they mean to do with us, but I suppose they must think we are terribly important to take all this trouble to bring us home.

"But I am glad it is over. It is not pleasant to go hurrying and dodging over the country and feel that you must keep out of sight of everyone to avoid arrest, never knowing whether you are talking to a friend or a detective. Although it came with something of a shock, I can tell you it was a relief when a detective touched me on the shoulder in Cincinnati, just the way they do in the thrilling storybooks we used to read, and told me that I was under arrest."

Speaking of the death of Young, Mrs. Smith said:

"On the day before that terrible day my husband and Nan and I were at the racetrack.

"We were there when it is said the revolver was bought. We knew nothing of it, and could not have had anything to do with it.

"Then came that terrible day. At the time my health was far from good. It was a terrible shock when I heard of Nan's arrest, and on top of that I received word from Washington that our mother was dying.

"I knew that Nan needed me, but I felt that mother needed me more, and I went to her.

"Morgan went with me. He was immediately charged with contempt of court, and we knew that if we came back to New York we should be thrown into the House of Detention and held there until the case was ended. I supposed we would have been there yet."

J. Morgan Smith and his wife will today be arranged before Judge Foster in the Court of General Sessions to answer to the technical indictments charging them with conspiracy. They are expected to be held on this charge, and on Monday next, when the trial of Nan Patterson is renewed, the couple will be called as witnesses for the prosecution.

New Cure For Cancer.

All surface cancers are now known to be curable by Bucklen's Arnica Salve. Jas. Walters, of Duffield, Va., writes: "I had a cancer on my lip for years, that seemed incurable, till Bucklen's Arnica Salve healed it and now it is perfectly well." Guaranteed cure for cuts and burns. 25c at E. S. Leadbeater & Sons' drug store.

Taking Desperate Chances.

It is true that many contract colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding cold and paves the way for more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cure of colds, can be had for a trifle? For sale by Gibson & Timman and W. F. Creighton & Co.

SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

WEDNESDAY EVENING, APRIL 12, 1905.

GOV. MONTAGUE reminds many of the moth that persisted in playing around the candle even after its wings had been singed. The Governor made a big mistake in his opening speech, but despite many warnings he persists in continuing his mistake. In his speech at Buckingham yesterday in according to the lack of experience in Senator Martin when he took his seat in 1895, the Governor called attention to the fact that Governor McKinney practiced at the Buckingham bar with him, and, although Governor McKinney knew him well and was undoubtedly a competent judge, he declined to appoint him in spite of the recommendation of a majority of the legislature, but named General Hunton to fill the vacancy greatly to the satisfaction of the State. He then said that if it had depended on experience based on any public service whatsoever, the junior Senator could never have been appointed, as he had never held any office by election or otherwise in the gift of the people. The governor should remember that his desire to succeed Senator Martin is not the only issue in the campaign.

A YEAR AGO the office of Military Secretary was created by the Legislature, and Major R. W. Hunter was appointed. The object was to secure muster rolls of all the Virginians who took part in the civil war. The office has expired by limitation, but something more than 90 per cent. of the rolls have been secured and presented to the Secretary of War at Washington. Major Hunter proved to be the right man in the right place for this position and has well and faithfully performed the duty assigned him. His heart was in the cause and of course he succeeded, for higher motives than the small salary attached to the office actuated him in his prosecution of the work which will so redound to the credit of the State.

BY AN ORDER issued at the Postoffice Department yesterday by Third Assistant Postmaster General Madden newspaper supplements not germane to the publication itself will not be permitted in the future to be entered as second-class matter, the same as newspapers. This order is a good one and should be enforced. Many newspapers, of which better things were expected, have become prize lottery mediums through these supplements, thus lowering the high standard in which they were previously held.

IT IS announced in Washington at the Civil Service Commission that while the number of applicants for federal positions under the civil service rules was only seven thousand, in round numbers, last year, the number this year, in round numbers, is eighteen thousand. The tremendous increase in the number of applicants for government positions indicates that times are harder now then they were last year; and also that there is a growing desire to secure soft berths with few cares.

AN INVESTIGATION by the Chicago federal grand jury, which is inquiring into the working methods of the alleged beef trust of a much deeper nature and wider scope, it is asserted, is to result from the examination of the contents of the eight trunks taken Monday from the safety vaults in the First National Bank building. It is hoped that the Chicago jury may bring this trust to book, for no one else has yet been able to do so

STATISTICIAN Bailey, of Yale, estimates that the poor students at that university spend four-fifths of their money on necessities, while the wealthy class spends less than 1 per cent. on tobacco and stimulants, and the wealthy more than 7 per cent. Those who spend the largest amount on pleasure and intoxicants naturally rank lowest in the class room.

SENATOR JOHN H. MITCHELL, of Oregon, who is charged with complicity in land frauds, has decided to stand trial on the issues, pleading not guilty in three of the cases. This is a sad picture for the country, when one of its members in the highest law making body is forced to stand before a court of justice on a charge of fraud!

BASEBALL scores in the papers, crocuses in the gardens, thunderstorms chasing across the skies—these ought to convince the most despondent pessimist that "spring has come at last."

The Plot Against Sergius.

Moscow, April 12.—There is a curious report in circulation here that the assassination of the Grand Duke Sergius was planned by several prominent persons in the palace. The names of these alleged conspirators, if divulged, it is stated, would create a great scandal, and render the situation dangerous, as it would show number of those close to the throne who are actuated by revolutionary sentiments. It is stated that the government does not intend to place the actual assassin of Sergius on trial, fearing there might be a public revelation of the whole plot.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., April 12.

The next move in the diplomatic game between Venezuela and the United States is awaited with great interest by the foreign legations here. They are watching the course of events with some amusement, in the case of representatives of European powers, and with solicitude in the case of the South American envoys. No action is expected until after the President's return from his hunting trip, and what course he will take will be dictated largely by developments in the meantime. The conviction is growing that the United States has taken an untenable position in demanding that cases actually pending before the courts of Venezuela shall be removed from that jurisdiction and submitted to arbitration. Such a demand is regarded in some quarters as a direct reflection on the integrity of the Venezuelan judiciary which is properly resented by President Castro's government. It is pointed out, for example, that if England or Germany, many of whose citizens were interested as stock and bondholders in the roads involved in the Northern Securities case, should have announced while it was pending that they would not be bound by the decision of the Supreme Court of the United States and demanded that it should be submitted to arbitration, a howl of indignation would have gone up all over the land. Yet that is just what the United States has done in the asphalt and other cases in Venezuela. In the present situation Castro is generally believed by diplomats here to have the best of the argument and they are curious to see how the United States will manage to get out of the tangle.

Edwards, at present in charge of the insular bureau, will be the chief. This bureau will handle all the accounts, contracts and correspondence of the commission in Washington. Capt. Robert E. L. Michie, of the 12th Cavalry, who has been serving as a member of the general staff, will be assigned to the insular bureau.

The Chicago Strike.

Chicago, April 12.—Mayor Dunne's attitude in the Montgomery, Ward & Co. strike this morning, was disclosed by an order to the police to preserve order regardless of the protests of labor unions. The leaders yesterday bid for the sympathy and partisanship of the Mayor in an interview in which they complained of officiousness on the part of the police. The employers' association is well pleased with the order which comes as a reply to a letter to the Mayor. The employers have secured a larger number of non-union men to drive wagons for the boycotted firm, and have made other preparations for extending the fight. One hundred extra policemen have been detailed to guard the company's wagons. Threats of boycott against hotels which hold strike breakers have been devoid of effect. Detectives have been employed to watch express wagon drivers and get evidence on which to base a petition to the federal courts to enjoin interference with interstate commerce.

New York, April 12.—Some days ago Pietro Caccosa a barber, who has a shop at 438 Mary avenue, Brooklyn, and who lives with his family over his place of business, received four "Black Hand" letters demanding $100 on the pain of death if he refused. Pietro told the police and refused to worry. Early this morning Pietro was rudely awakened by a dynamite bomb which was exploded under the front stoop of his house. Part of the front of the foundation wall was demolished. Windows in the houses across the street were smashed. No one was injured. The police have the letters which furnish no clue.

St. Petersburg, April 12.—A court martial has been appointed to inquire into the naval battle of Port Arthur, when the Russian ships made a sortie on August 10, and were attacked by Admiral Togo. Today's Telegraphic News

Naval Fight in Progress?

Amsterdam, April 12.—The Handelsblad has a telegram from Batavia, Java, which says that a fight is in progress between Japanese and Russian vessels at or near the Anambas islands. Five Dutch vessels are reported to be watching the battle. Details regarding the reported action are lacking. There is no confirmation of the reported fight. The battle may be an attack by destroyers on stragglers.

The Anambas islands, where it is reported the battle between the two fleets is in progress, are located in the southern part of the China sea, about 200 miles northeast of Singapore. A portion, at least, of the Russian fleet was reported yesterday as being at anchor in the vicinity of Pute Nanki, one of the Anambas group. Yesterday reports also told of several Japanese vessels being in that part of China sea. Whether these vessels were merely scouts or a part of the whole fleet, is not known.

If Togo's entire fleet has attacked the Russians, probably the greatest naval battle of modern times will be fought at this time. In London, there is a belief among many naval experts, however, that the attack may be one by destroyers on stragglers from the Russian fleet. If the attack is general, it is believed the battle will be decisive.

London, April, 12.—There has been no confirmation of the reported naval engagement off the Anambas islands. The message came from Batavia, Java, and there is no cable connection with the islands, near which the fighting is supposed to have taken place, it is hard to understand how Batavia should have received news ahead of Singapore.

The Nan Patterson Case.

New York, April 12.—Simon Stern, the pawnbroker who is alleged to have sold the pistol with which Caesar Young, the bookmaker, was killed, was brought to the criminal court house shortly before ten o'clock, and shown into the office of Assistant District Attorney Rand The object of his visit is to see if he can identify J. Morgan Smith as the man to whom the pistol was sold.

Smith and his wife were arranged before Judge Foster this morning on the indictment charging them with conspiracy.

Smith and his wife did not plead to the indictment when arraigned, and at the request of their counsel the case was continued until Friday next.

It was stated this morning that Pawnbroker Stern had failed to identify Smith as the man who bought the pistol.

To Investigate Millionaire's Death.

Rome, April 12.—A great sensation has been caused in society here by the steps taken by the government to investigate the death of Vladimir Desmiroff, a Russian millionaire, which occurred yesterday. M. Desmiroff recently disinherited his entire family, leaving his entire fortune to two women companions, Casmira Jakemowitsch and Louise Kuel. The son of M. Desmiroff started an investigation which revealed the fact that the women with whom M. Desmiroff was at the time of his death were in the habit of using morphine and had declined to allow physicians to attend the millionaire until just before death. The government has ordered that the body be exhumed and an autopsy held. M. Desmiroff moved in the most exclusive circles here, and the late developments have created a great deal of excitement.

Attempt to Rob a Bank.

Bernardsville, N. J., April 12.—An unsuccessful attempt was made early this morning, to rob the Bernardsville National Bank. The burglars forced an entrance through the front door of the building by the use of pick axes and chisels, which they had obtained at a blacksmith shop near by. The padlock on the door and the door lock were broken and the door was much battered. The marauders then drilled a hole in the large safe, dhor, inserted nitro glycerine, and blew open the out of door. Another charge was put in the inner doors, but aside from blowing the combination off, was ineffective. It was said this morning by the bank's officials that it would be impossible for burglars to get into the safe, without first blowing it practically to pieces.

Russian Army Menaced.

London, April 12.—From dispatches to the Exchange Telegraph Company, it is evident that the naval operations of the two belligerents will not be allowed to monopolize public attention entirely for many days. Reports from the armies in Manchuria have given rise to the fear that the Russian right wing is seriously threatened by the enemy. The disappearance of the Japanese which had been reported is looked upon with the greatest suspicion, and it is expected that important events will take place soon.

Death of an Odd Fellow.

Baltimore, April 12.—The Odd Fellows of the Nation suffered a serious loss today in the death of J. Frank Grant, Grand Secretary Sovereign Grand Lodge, Odd Fellows. Conditions in Crete.

Athens, April 12.—Dispatches from Crete indicate that the trouble which has been threatened there for some time past has reached a crisis. City Council.

The City Council was in session about an hour last night, during which time a large volume of business was transacted. Most of it, however, was of no general importance, and the bulk of the papers introduced were referred.

BOARD OF ALDERMEN.

All the Aldermen except Mr. Hill were present.

The resolution appropriating $8,500 for the construction of a trunk sewer in the western section of the city, passed by the Common Council at the last meeting, was read.

Mr. Burke moved that the Aldermen concur.

Mr. Ballenger asked if Council had obtained the right of way through certain property of the Southern Railway Company.

Mr. Curtin answered in the affirmative.

Mr. Marbury said the city would never do anything if it kept postponing action for this and that reason. Everything had been provided for in connection with the purposed work. He urged immediate concurrence in the action of the Common Council.

President Sweeney asked if it was necessary to pass the resolution at present. He would prefer that action be postponed two weeks.

Mr. Marbury again urged immediate action. The right of way had been obtained from the railroad company the day following the passage of the resolution by the Common Council.

President Sweeney again said it would be better to defer action for two weeks. He wanted time to consider the matter, ascertain the dimensions of the purposed sewer, its nature, the material of which it was to be constructed, &c. The resolution failed to give such information, and he wanted to be in a position to answer such questions as were likely to be propounded him by his constituents. He suggested that the City Engineer be invited into the chamber in order to have the objects of the resolution explained.

The President's views were concurred in by Mr. Fisher.

Mr. Burke said he had no intention of forcing the matter when he moved a concurrence. He thought, however, that the work should be commenced as soon as possible,

Mr. Marbury said if the work was not commenced at once it could not be completed before cold weather, and the sewer was absolutely necessary and was demanded by the present conditions in the western section of the city.

Mr. Dunn at this juncture entered the chamber and answered a number of questions propounded. In his explanations he practically took the same stand as Mr Marbury, saying that the work should have been begun several weeks ago. He said the purposed sewer would be 4½ by 5 feet 3 inches.

Mr. Marbury said there was no good reason for interrogating the City Engineer. When he had explained a matter the members of the board practically knew no more than they did at first.

The President called Vice President Curtin to the chair and reiterated his objections to proceeding in haste in the matter. He showed that on previous occasions there had been no undue haste in building sewers. He was in favor of such improvements, but repeated what he had said at first, that there was no good reason for expediting the work called for by the resolution.

Mr. Dunn said it would be impossible for him to give the actual dimensions of the sewer, as the condition of the ground through which it is to pass has to be considered. The structure would be of concrete, or it might be necessary to use a ring of brick, according to the volume of water found. The City Engineer exhibited the plans to the members, and explained all their details. He said it would be necessary to begin work at once in order to complete the sewer this year.

Finally Mr. Ballenger moved that, inasmuch as Mr. Dunn had explained all in connection with the purposed sewer, that the Aldermen concur in the action of the Common Council, and all the members voted in the affirmative.

No further discussion followed, and the Aldermen after concurring in the action of the Common Council on a number of papers sent in, adjourned.

COMMON COUNCIL.

The spring changes the hour of meeting from 7:30 to 8 o'clock and the board was called to order a few minutes after that time.

The reading of the minutes was dispensed with.

W. H. Bontz, engineer of the Reliance Company, was allowed $2.50 per month for taking care of the old Hydraulion engine.

An ordinance authorizing a deed to H. Kirk, jr., for a lot on Union street delinquent for taxes bought by him was agreed to.

The auditior reported that the appropriations for electric light, cleaning streets and the fire department were exausted and the paper was referred.

Ordinances were reported for grading and paving Royal street from King to Cameron street and for a like improvement on Royal street from King to Prince street with vitrified brick. These ordinance are not to go into effect until three-fourths of the property holders shall have deposited $2.85 per front foot of their property and a rebate will be made for curb already set, when no deposit is made then no work will be done in front of the non-paying property but the cobble stones will be be allowed to remain in front of the premises of those who fail to sign for the improvement for a distance of ten feet six inches from the curb line.

Mr. Leadbeater, chairman of the committee on streets, stated that on account of the City Hall facing on Royal street, the city's share of the cost of paving the square from King to Cameron street, would be more than one-half of the total cost. He estimated the city's share at from $2,000 to $2,500. In reference to an ordinance providing for paving Royal street from King street to Prince street, in the same manner, Mr Leadbeater said that the property owners would receive the advantage of the amount which would be paid by the electric railway company for paving along its tracks. He further stated that the city's share of the cost on this square would be between $1,500 and $2,000. These ordinances, together with one directing the Washington, Alexandria and Mount Vernon Railway Company to lay grooved rails on Royal street, from King street to Prince street, and to pave between the rails and two feet on each side, were referred to the committee on finance and streets.

Mr. Williams asked what had been done by the committee on public property relative to the improvement of the station house and Mayor's office.

Mr. Hellmuth replied that the subject was in the hands of the City Engineer who is preparing plans, &c.

Mr. Williams wished to know when that would be.

Mr. Hellmuth said it was expected that the engineer would soon make a report, and then the matter would be reported on.

Mr. Brill moved to take the matter from the committee and Mr. Hellmuth promptly seconded his motion.

The chair said that this was the most unusual proceeding that he had witnessed during his twenty years in Council. He announced his opposition to interfering with the work of committees.

Mr. Bryan explained that the subject had been examined by the public property and finance committee and some changes had been suggested; this was the reason no report had been made.

Mr. Williams expressed his satisfaction.

Mr. Brill's motion was lost and Mr. Harrison called on the committee on claims for a report on the petition of W. L. Lyons for damages for injuries alleged to have been received by being kicked by one of the Reliance fire engine horses. Mr. Williams stated that several members of the committee on claims had been out of the city, but he hoped to have a meeting in the near future.

This caused some amusement at the expense of Mr. Williams who had just complained of the delay of another committee report.

Mr. Spinks introduced a resolution that the Corporation Attorney prepare an ordinance for submitting to the voters of the city the question of the sale of the electric light and power franchise.

Mr. Bryan thought the City Council was elected to determine such matters and were fully competent to do their work.

Mr. Williams replied that the City Council had had the matter before it for a long time, but had been unable to determine, therefore it was proper to allow the voters to decide.

The subject was referred to the committee on light and general laws.

Mr. Leadbeater introduced a resolution that whereas the Braddock House is in a dangerous condition and is entirely unsanitary, that the Mayor, City Engineer, health officials, &c., be requested to examine the house and report upon its condition.

After some discussion as to the power of the City Council to appoint a committee of officers outside of Council it was agreed that the matter be placed in charge of the committees on streets and general laws.

Mr. Hellmuth called attention to the need of cleaning alleys and streets and criticized the slow method of street cleaning.

Mr. Spiuks made representation in the same direction and said in many instances dirt that had been raked into piles on the streets was left to be scattered again.

The Chair stated that the City Engineer had showed him a list of complaints and that they were being met as rapidly as possible; he stated that the streets in the First ward were now being cleaned.

Mr. Leadbeater said that the appropriation for streets was about exhausted and the extra appropriation asked for tonight would come up at the next meeting. He had been told by the City Engineer that $15,000 per annum would be needed to properly clean the streets and alleys. He thought that it would be to the interest of the abutting property holders to pay for the cleaning of neighboring alleys which they claimed as private property.

The Mutual Ice Company, Joseph F. Rodgers and P. Lawrence were authorized to make frame improvements within the fire limits by consent of adjoining property owners.

An application of the fire chief for an increase to $180 in salary and $120 for allowances was referred, as was also an application of W. H. Glasgow, of the electric works, for a month's salary while sick.

A petition in favor of a fire alarm telegraph was referred.

An application for extension of the sewer on Royal street, south of Franklin, to Church street, was referred, as was an application for repairs to the old Hydraulion engine house in order to remove an unsightly object.

Council then adjourned.

The Late Dual Tragedy.

Baron Mayor des Planches, the Italian Ambassador, has asked the State Department to ascertain the circumstances of the death of Joseph Leonto, an Italian workman, one of the victims of a recent double tragedy at Lorton, Fairfax county. Immediately upon the receipt Monday by the State Department of the note of the Ambassador Assistant Secretary of State Adee called upon Governor Montague, of Virginia, for a report in the case, giving him a copy of the letter received from Ambassador des Planches. While it is yet too early to say just how serious this affair may prove to be and what attitude will be assumed by the Italian government, the case is regarded seriously by the State Department and by the members of the Italian Embassy here. Baron des Planches reports to the State Department that he personally came to this city last Saturday for the purpose of making inquiries into the manner of Leonto's death. Unable to get the facts here, he detailed one of the secretaries of the Italian Embassy to go to Lorton and make a careful investigation. The report of this attache has convinced Senor des Planches that Leonto met his death as a result of "mob violence" and that the report to the effect that he killed himself when closely pressed by a depnty sheriff and possee was false. According to the Italian Ambassador, Leonto's wounds were of such a character that he could not possibly have inflicted them upon himself, one bullet wound being through his right, or pistol, hand. The officials of the State Department are rather at a loss what to do in the matter, even should Governor Montague report that the man was killed by the people of Lorton, as alleged by Senor des Planches.

Enforcing the Law.

The question of obstructing sidewalks was again in the Police Court this morning. A King street merchant was before the court for allowing five barrels of oil to remain out over night. The merchant stated that if he had to remove the barrels every night he would have to stop handling oil, as he was without an adjacent yard and had no room within his store. The Court held that the sidewalks and streets were the property of the public and that the public was entitled to a free and unobstructed use of every part of the same. Hence the sidewalks and streets must be kept clear except, of course, that merchants would be allowed use of the same for purposes of loading and unloading merchandise. For this purpose a reasonable obstruction for a reasonable time will be allowed. Several cases of this nature have been heard recently and each had been decided on its merits. Complaint had been subsequently made that when a reasonable obstruction for purposes of displaying goods had been allowed the merchants in some instances had overreached the reasonable mark and occupied nearly all of the sidewalk, so yesterday Mayor Paff, City Attorney Boothe and Justice Caton held a conference and went over the matter thoroughly. The law as set forth in the decision this morning is perfectly clear and it was decided to enforce it strictly. The efforts of the authorities to enforce the law referred to above are producing more satisfactory conditions, and several places in the city heretofore blocked with goods, furniture, boxes, &c., are now devoid of the same.

To Extend the Sewer.

Mr. Burke last night introduced a resolution in the Board of Alderman directing the Corporation Attorney to draw an ordinance providing for an extension of the Royal street sewer from Franklin to Church street, a distance of three squares. The resolution was referred to the committee on streets. At present the sewage of a large portion of the city is discharged at Royal and Franklin streets, and the effluvium from the same in warm weather has been a nuisance and a menace to health for a long time. About nine years ago the Mayor called the attention of Council to the fact that while Council was passing laws imposing fines upon people for having nuisances on their premises the city was maintaining a wholesale nuisance at the point described. Council at that time appropriated $40 for the purpose of constructing an open trough a few yards farther south, which in no way lessened the nuisance. By the plan proposed by Mr. Burke the sewer will extend to a point where the flowing and ebbing of the tide will carry off the drainage.

The Fishery.

There is some anxiety manifested as to the outcome of the present fishing season. There was a comparatively good run of shad and herring about a week ago, but receipts have fallen off and prices are stiff for herring, while shad are advancing. The change in the weather has proven a setback to the seinehaulers. There is, however, optimism displayed by a few engaged in fishing operations who believe conditions will soon improve, and that an average number of fish will be caught eventually. The Alexandria gillers are catching but few shad, although the local seinehaulers continue to land many perch and other pan fish.

Emancipation Celebration.

The Alexandria Emancipation Association met last night to further the arrangements for the celebration of the 42nd anniversary of Lincoln's proclamation in this city Monday, May 15. True Reformers' Hall will be used at night for the closing exercises of the day, where the emancipation queen will be crowned at 10 o'clock. Frank Williams was chosen grand chief marshal of the parade. A baseball tournament will be also one of the features of the day.

To Examine the Building.

A resolution was introduced in Council last night, requesting the committee on streets and general laws to report to the next meeting of Council the condition of the Braddock House. There is apprehension among some of the city fathers concerning the safety and sanitary condition of the building.

The pallbearers were members of Alexandria-Washington and Andrew Jackson Lodges. A number of relatives and friends of the deceased attended the funeral.

The remains of Mrs. Rosie Wagner, who died yesterday morning at her home on Prince street, were forwarded today to Mercersburg, Pa., by Mr. B. Wheatley.

The accident occurred about 150 yards from the shore.

Miss Miller tried for two years to get a lawyer to take her case and upon refusal herself took up the study of law and conducted her own case which ended in a victory with this mornings verdict.

Wheat.

Chicago, April 12.—With the arrival in Chicago today of John W. Gates, short in May wheat likely will sit up and take notice. Daily developement in the big May wheat deal in the local market in which Gates and some Wall street friends of his are the longs, continue to be confined mostly to guesses as to when the bulls will go gunning. There was 2¼ cents advance in May wheat early today under the manipulative markets of the bulls and the covering of shorts. May sold at 115½ to 116½ off to 115½. July was strong selling at 87⅞ to 87½ a 88⅝. They closed yesterday at 114⅝ and 87½ respectively.

Senator Martin.

Senator Martin last night gave out a statement regarding his alleged connection with railroads as an attorney. Prior to his election, he said, he represented the Chesapeake and Ohio in five counties for $1,000 a year. The president of the road, M. E. Ingalls, was one of his strongests antagonists when he ran for the Senate. Before entering upon his duties, Senator Martin said, he resigned this office, and has never represented any corporation since. He has, he said, appeared in suits against the Chesapeake and Ohio and nearly every railroad corporation in the State.

Gov. Montague spoke at Buckingham Court House yesterday to a large crowd. He was followed by Congressman H. D. Flood in behalf of Senator Martin.

THE VENEZUELAN QUESTION.

"President Castro will not withdraw the New York and Bermudez Asphalt Company case from the Venezuelan courts and will not resubmit the Olcott case to arbitration if the whole American army and navy come to Venezuela."

This statement of General Alejandro Ybarra, the Venezuelan Secretary of Foreign Affairs, reflects the spirit of the reply which President Castro made to the recent proposal of the American State Department for the arbitration of the Bermudez and Olcott cases.

It was generally rumored throughout Venezuela that the demand of the United States was little less than an ultimatum to General Castro and the reply of the Venezuelan President was awaited with interest. Predictions of intervention following the refusal of Castro to yield were freely made and there was much uneasiness when it was stated that the Venezuelan government had not only refused the demand to arbitrate the case, but had supplemented its refusal with a request that the United States declare whether it has any respect for the sovereignty and the courts of Venezuela.

Nearly two weeks have passed since Castro made his reply, and as no action has been taken by the United States and no further demands have been made, the last demand of the United States has gone the way of many previous requests for arbitration and the incident is practicallly closed as far as its discussion in Caracas is concerned.

President Castro and his advisors claim that to reopen the Olcott case would be an insult to Holland, as Mr. Barge, who acted as umpire, is a well-known Dutch diplomat. They also hold that as Venezuela was denied the right to have the arbitration of the Belgian water works case reopened, none of the other cases settled under the Washington protocols shall be reconsidered. It is emphatically denied in the reply of President Castro that there are any claims pending between the United States and Venezuela. He again reiterates that the New York and Bermudez Asphalt case, now in the Venezuelan courts, is a national and not an international one.

President Castro and the members of his cabinet take the ground that while the government stands for the general principle of arbitration, it will not have a case wrested from its courts to be carried before a board of arbitration.

The charges that Venezuela is not paying its obligations to creditor nations under the Washington protocols are denied by administration officials.

While diplomats who have inquired at the State Department have been informed that practically no action will be taken regarding Venezuela until President Roosevelt returns from his western trip, they also have received the intimation that if the exact text of Castro's answer comprises an insult to the American Minister it will not pass unnoticed.

Failure of Arbitration.

Offering to arbitrate everything in connection with the Montgomery Ward strike in Chicago with the exception of the garment-workers' grievances, a committee of the Commercial Exchange, an organization of Chicago employers, deadlocked with representatives of the Chicago Federation of Labor and the joint teamsters' unions at the Grand Pacific Hotel yesterday afternoon. The meeting adjourned with no peace in sight.

The union labor committee, fresh from a conference with Mayor Dunne, set forth empathatically that the teamsters were out in sympathy with the garment-workers only, and that if the grievances of the garment-workers were not to be considered there was nothing to arbitrate. It was charged that the Wholesale Tailor Manufacturers' Association had entered into a conspiracy to bring back former sweatshop conditions among the garment-workers, and that the conspiracy had been successful in New York Rochester and Philadelphia, and was being pushed here in Chicago. Another conference will be held tomorrow. Neither side appeared hopeful of results making for peace.

Mayor Dunne promised to sit as an arbitrator on the condition that the members of the union were law-abiding and peaceable in the strike. The Mayor insisted, however, that this condition be lived up to, and he told the union men he would enforce law and order before he did anything else in the matter.

A desperate struggle between the police and teamsters occurred yesterday at Adam and Market streets. Six loaded trucks from the Union Station freight house en route to Montgomery Ward & Co's building just reached the bridge when they were met by a volley of stones hurled by strike sympathizers.

For 15 minutes the mob had the caravan tied up under a rain of missiles. A call for police was made. When help arrived the marooned teams were escorted to their destination.
